

SAFETY CIRCULAR NO. 01/ 2009

TO : All Business Units of Dubai World
CC : Amin Al Mulla - Chief Operating Officer EHS
All EHS Managers, CED - Trakhees
SUBJECT : Regulations for Environmental Nuisance Management
DATE : 09 February 2009

EHS is proud to announce the issuance of new *Regulations for Management of Environmental Nuisance from Construction Activities*, Revision 01 - December 2008

This regulation is complementary to the following existing regulations:

- ✚ PCFC Health & Safety Regulations and Standards, Third Edition 2006
- ✚ PCFC, Environmental Control Rules and Requirements, Fifth Edition 2008

This regulation aims to provide direction to Dubai World master developers and also all clients, project management teams, consultants & contractors working in Dubai World jurisdictional areas to include and implement Minimum Environmental Management Requirements. This also aims to eliminate or reduce the incidence of environmental nuisance to residential communities.

This regulation will be periodically reviewed, updated and made available to users as part of EHS responsibility.

Please ensure that you study the regulations which are posted on our website www.ehss.ae, and communicate the information down the line to all your project management teams, clients, consultants and contractors working in your developments.

We look forward to your cooperation to enhance Environment, Health & Safety Standards within Dubai World.

Regards,

Mohammed Al Shaer
Senior Manager - Construction Safety
