Name & Title :

Note: Any changes/additions to this list on site will require to be notified in the first instance to Inspection Dept. and prior approval for any additional/modified equipment/machinery shall be obtained. Failure to do so may result in penalties being imposed in accordance with the Rules and Regulation. DO NOT include additional machinery/equipment in this list without requisite documentary approvals on the same. For any Major changes such as a significant increase in power demand, structural change, additional tank farms, machinery lines, etc., Modification Completion Certificate from CED is required. Following approval of changes, Inspection Department will update the list and raise the version number
